

# ANCHOR CHAIN LINK, CASE STUDY 2010

**ANCHOR WIRE LIMITED**  
*Trusted Quality*

**Date:** 2010 installation date

**Customer:** National Retail Outlet

**Site:** Distribution Centre

**Location:** Auckland

**Product:** Anchor Galvanised Chain Link - Made in New Zealand by Anchor

**Application:** Internal Security

## Detail;

The customer is a national retail outlet that has a large distribution centre that handles a wide range of consumer goods. Their requirement was to separate the goods according to size and value. They wanted a simple and practical solution that could be retro fitted into their existing site without disruption to their operation.

Anchor was approached and selected as the preferred supplier due to the quality required and the tight time frames. The customer wanted it completed prior to receiving new goods and time was of the essence.

We custom manufactured the actual sizes of chain link that they needed to fit the specific areas of the internal security set up. We also made chain link gates to allow good access from various locations.

Anchor utilises the finest materials in its ISO 9001 accredited production regime.

Our galvanised chain link is manufactured from wire meeting standard NZS 3471 ; 1974, which for 2.5mm galvanised wire is a minimum galvanised coating of 260 grams per square metre.

We have been manufacturing chain link fencing since our incorporation in 1972. Anchor's products are recognised for their quality, be it PVC coated chain link for tennis courts or galvanised for security applications.

A trusted supplier to the education, commercial and industrial sector Anchor is the national leader in chain link production.

To the right are photos post installation of the Anchor Chain Link.

**Anchor is New Zealand's No1 Fence Manufacturer – est 1972.**
